

FRESNO COUNTY DIRECTORY OF RECYCLERS TURNING IT AROUND

2007

YOUR GUIDE TO RECYCLING OPTIONS AND SERVICES IN FRESNO COUNTY

THANK YOU FOR “TURNING IT AROUND” IN FRESNO COUNTY

On behalf of the Fresno County Board of Supervisors, the unincorporated portions of Fresno County, and the cities of:

Clovis	Huron	Parlier
Coalinga	Kerman	Reedley
Firebaugh	Kingsburg	San Joaquin
Fowler	Mendota	Sanger
Fresno	Orange Cove	Selma

Thank you for making an effort to recycle. We need your support in order to comply with AB 939, the State law that requires us to reduce the amount of waste going to local landfills by 50%.

Recycling is also important because it:

- ✓ Saves space, prolonging the life of our landfills
- ✓ Postpones the costly tasks of closing an existing landfill and siting a new one
- ✓ Discourages wasteful behavior
- ✓ Encourages cost-effective use of our resources, many of which are limited and cannot be replaced once they are used up
- ✓ Saves energy because manufacturing many products from recycled materials is often less energy intensive than starting with new materials

USING THIS RECYCLING DIRECTORY

Please take the time to call before you go to a recycler. Besides directions, you can get information on any changes in hours or materials accepted. Every effort has been made to provide you with the most complete, accurate, and up-to-date information possible, but things change.

Do share with us your ideas for improving this directory, including information on additional recycling opportunities in Fresno County. The County's Solid Waste Management Program is managed by Marion Miller, Fresno County Resources Division. Please call Leslie Kline or Susan Schneider at **(559) 262-4259** with any comments, suggestions, or questions, or use the TURNING IT AROUND comment card located on the back cover of this directory. You may also visit the County's website at www.co.fresno.ca.us.

BATTERIES: Household (Alkaline) & Rechargeable

All batteries are considered hazardous waste. As of February 2006, it is no longer legal to place any battery into a landfill (or your trash) in California. This ban includes batteries that do not contain lead as they contain other caustic/toxic chemicals. All types of batteries may be brought to the Household Hazardous Waste Drop-off event for recycling. It is anticipated that additional options will become available as the business community becomes more aware of this recent change in the law. Please contact the County for the most current information.

Important Note: There are alternative recycling options available for some types of batteries.

Vehicle batteries (lead-acid) may be taken to a variety of automobile-related businesses. Some of these businesses pay you for your car battery.

Rechargeable batteries will be accepted at **no charge** by businesses that participate in the Rechargeable Battery Recycling Corporation (RBRC) network. Rechargeable batteries include nickel cadmium, nickel metal hydride, lithium ion and small sealed lead batteries weighing up to 2 pounds each. They do **not** include the standard alkaline batteries that are not designed to be regenerated in a recharging unit. Call "1-800-8-battery" to find the name and address of a place near you that participates in this **FREE** program.

Did you know that rechargeable batteries cost less per hour of use than alkaline batteries, charge faster and last longer than ever before? In addition, there are more than 50 locations in Fresno County for recycling rechargeable batteries every business day.

Fresno County, Resources Division (559) 262-4259
 Rechargeable Battery Recycling Corporation (800) 8-Battery

CELL PHONES

As of July 2006, it is no longer legal to place any cell phone into a landfill (or your trash) in California. With a few exceptions, this law requires stores that sell or repair cell phones to accept old or broken phones for recycling at no charge. In addition, you may donate your unwanted/obsolete phone to one of the many organizations that collect, refurbish and distribute discarded cell phones to disadvantaged people in need of access to emergency services. Check with your favorite charity.

PLASTIC BAGS

As of July 2007, most large supermarkets and stores with pharmacies will be required to provide a bin in which clean plastic carryout bags may be collected for recycling and to make reusable bags available to customers for purchase. The new law also encourages voluntarily compliance by other retail establishments and smaller supermarkets. Rather than relying on a list of participating stores, consider encouraging every store you shop at to provide this service. And if you have not used reusable bags in the past, give them a try. Most people find reusable bags to be very user-friendly and an improvement over both paper and plastic bags. If you place recently emptied bags at the door, you are less likely to forget to take them back to your car and more likely to have them with you when you are shopping.

HOUSEHOLD HAZARDOUS WASTE (HHW)

Here is a way to dispose of things around your home such as:

batteries · fluorescent lights · used oil · gasoline · transmission fluid · brake fluid
 nail polish · spot remover · thermostats · propane tanks
 toxic or caustic household cleaners · oven cleaners
 pool chemicals · garden pesticides · herbicides · fertilizer
 wood preservatives · old paint · varnish · paint stripper · tar
 Sharps (needles and lancets used at home by “self-medicators”)
 electronic waste: cathode ray tubes (e.g., computer monitors, television sets), laptop computers, game boxes
 and other devices with a screen, including LCD and plasma
 small appliances (e.g., coffee pots, toasters, dryers, phones, all types of recorders and players, office
 machines, computers, things with mercury switches and things that light up)

The County of Fresno holds two “drop-off events” each year for **County residents**. One is usually in the Spring; the other in the Fall. There is no charge for “residential” waste, but there are limits on the types and quantities of items accepted. **Reservations are required.**

For more information about the next event or ideas on managing HHW, call (559) 262-4259. Information is also available about low-cost HHW disposal programs for **small businesses and ag-related hazardous waste.**

SPECIAL PROGRAMS – SPECIAL HANDLING

AG PESTICIDE CONTAINERS

American Avenue Landfill accepts triple-rinsed containers the 2nd Wednesday of March, June, September and December. Call for rules and disposal charges.

American Avenue Landfill (559) 846-6138

APPLIANCES: MAJOR

Major appliances include, but are not limited to, refrigerators, freezers, ovens, stoves, dishwashers, washing machines, dryers, air conditioners, dehumidifiers, water and space heaters, furnaces, trash compactors, and microwave ovens. As of January 1, 2006, State law prohibits landfills and scrap dealers from accepting discarded major appliances without a "Certificate of Recycling" proving that all the hazardous materials in that appliance have been removed by a Certified Appliance Recycler (CAR). When this edition of the directory was prepared, the list of CARs located in Fresno County was very limited. It is anticipated that as the business community becomes more aware of this recent change in the law, new options and contact information will be available. Please call the County for the most current information on where major appliances may be taken for disposal by a CAR.

Fresno County, Resources Division (559) 262-4259

APPLIANCES: SMALL

Small appliances that contain toxic materials (e.g., mercury switches, heavy metals and/or lead solder) are banned by the State from landfills in California as of February 2006. This ban includes, but is not limited to, items with electric cords and/or computer chips, including computers, computer peripherals, telephones, answering machines, radios, stereos, players and recorders (disk, tape, video), small appliances used for heating and cooking, hair dryers, calculators and other office machines.

Residents of the City of Fresno (City) may place these items in the City's blue recycling container **IF** the operation of the container is not compromised (i.e., the lid will close properly and the item will drop out easily when collected). These items may also be disposed of at no charge through the County's Household Hazardous Waste Drop-off program.

At the time this edition of the directory was prepared, additional options for properly disposing of small appliances in Fresno County were very limited. It is anticipated that as the business community becomes more aware of this recent change in the law, new options and contact information will be available. Please call the County for the most current information on where small appliances may be taken for disposal.

Fresno County, Resources Division (559) 262-4259

AMMUNITION, GUN POWDER, FIREWORKS, OTHER EXPLOSIVES

Call the business office of your local fire station, police department, or sheriff's station for details.

BATTERIES

All batteries are considered hazardous waste. As of February 2006, it is no longer legal to place any battery into a landfill (or your trash) in California. This ban includes batteries that do not contain lead as they contain other caustic/toxic chemicals. All types of batteries may be brought to the Household Hazardous Waste Drop-off event for recycling. It is anticipated that additional options will become available as the business community becomes more aware of this recent change in the law. Please contact the County for the most current information.

Important Note: There are alternative recycling options available for some types of batteries.

Vehicle batteries (lead-acid) may be taken to a variety of automobile-related businesses. Some of these businesses pay you for your car battery.

Rechargeable batteries will be accepted at **no charge** by businesses that participate in the Rechargeable Battery Recycling Corporation (RBRC) network. Rechargeable batteries include nickel cadmium, nickel metal hydride, lithium ion and small sealed lead batteries weighing up to 2 pounds each. They do **not** include the standard alkaline batteries that are not designed to be regenerated in a recharging unit. Call "1-800-8-battery" to find the name and address of a place near you that participates in this **FREE** program.

Did you know that rechargeable batteries cost less per hour of use than alkaline batteries, charge faster and last longer than ever before? In addition, there are more than 50 locations in Fresno County for recycling rechargeable batteries every business day.

Fresno County, Resources Division (559) 262-4259

Rechargeable Battery Recycling Corporation (800) 8-Battery

BUSINESS, COMMERCIAL AND MULTI-FAMILY UNIT RECYCLING PROGRAMS

Business, commercial and multi-family units located in the City of Fresno are encouraged to learn about the various recycling programs available to them. The newest option is having a program custom-designed to fit your particular needs and waste streams.

Businesses in incorporated cities other than the City of Fresno and the unincorporated portions of Fresno County are invited to sign up for a **FREE** waste assessment. These on-site visits are designed to help a business identify opportunities for reducing disposal costs and to provide options for increased recycling.

City of Fresno, Solid Waste Management (559) 621-1111
Fresno County, Resources Division (559) 262-4259

CARPET

Carpet and carpet padding free of solid waste (no tacking strips, no razor blades, no glue, no wallboard, no anything) may be brought to the American Avenue Landfill for recycling. At the gate, ask if your load qualifies. If so, get directions to the self-hauler recycling center. The tipping fee is the same, but you will be making a significant contribution to the County's waste diversion quota. Many types of carpet and padding are suitable for recycling and can be made into new padding at a local processing facility.

Re-carpeting an apartment or office complex? If your old carpet is made of the right materials, you will want to speak with the local recycling facility directly for additional options. Please call the County for additional information.

Fresno County, Resources Division (559) 262-4259

CELL PHONES

As of July 2006, it is no longer legal to place any cell phone into a landfill (or your trash) in California. With a few exceptions, this law requires stores that sell or repair cell phones to accept old or broken phones for recycling at no charge. In addition, you may donate your unwanted/obsolete phone to one of the many organizations that collect, refurbish and distribute discarded cell phones to disadvantage people in need of access to emergency services. Check with your favorite charity.

CHRISTMAS TREES

Some cities and private waste haulers have seasonal collection or drop-off programs. Call your waste collector for details. Most accept trees if they are cut into pieces no longer than four feet and placed in the green waste collection bin. Call for other options.

Fresno County, Resources Division (559) 262-4259

COMPOSTING BINS

Many "home" and hardware stores sell composters.

The City of Fresno may sell you a composter "at cost" if you meet program requirements. Call for details.

City of Fresno Composter Program (559) 621-1111

COMPOSTING QUESTIONS

The University of California Cooperative Extension Master Gardeners' Program offers low-cost classes and free advice on composting.

Master Gardeners (559) 456-7564

COOKING OIL/KITCHEN GREASE

Do not pour grease down a drain or toilet. Call for disposal options.

Fresno County, Resources Division (559) 262-4259

ELECTRONIC WASTE (E-WASTE): COMPUTER MONITORS AND TELEVISION SETS

E-waste includes television sets with cathode ray tubes (CRTs), plasma and liquid crystal displays (LCD). It also includes computer monitors (with CRT and LCD displays), laptop computers and any devices which contain CRTs, plasma or LCD screens larger than four inches measured diagonally. Recently, the State has begun enforcing laws that define E-waste as a hazardous material and prohibit it from being disposed of in landfills. While E-waste is accepted at the semi-annual Household Hazardous Waste Drop-off events, the local network of E-waste recyclers continues to grow, providing free E-waste recycling services all year long. Please contact the County for a current list of businesses and charities that accept and recycle E-waste for free.

Fresno County, Resources Division (559) 262-4259

EYE GLASSES

Many places that sell/repair eyeglasses collect this item for recycling. Just ask if they participate in the Lions Club eyeglass program.

FLOORING MATERIALS/CEILING TILES

Some older flooring materials and ceiling tiles may contain asbestos. Special testing, packaging and noticing may be required before you may dispose of these items. Call for details before you start this kind of project.

Landfill Manager (559) 262-4259

FLUORESCENT LIGHT BALLASTS

Ballasts may contain a hazardous chemical (PCB) and must be taken to a Household Hazardous Waste Drop-off event. There is no charge to residential customers for this service. Call for the date of the next drop-off event.

Fresno County, Resources Division (559) 262-4259

FLUORESCENT LIGHTS (BULBS/TUBES/LAMPS)

Fluorescent lights contain mercury, which is a hazardous chemical. As of February 2006, it is no longer legal to place these lights, compact fluorescent lamps or high intensity light bulbs into a landfill. Large/commercial quantities of these banned lamps must be sent to one of three tube recyclers in California, all of which are located outside of Fresno County. Household quantities of fluorescent lamps may be brought to the Household Hazardous Waste Drop-off event. It is anticipated that additional options will become available as the business community becomes more aware of this recent change in the law. Call for details, new options and contact information. **Note:** Regular light bulbs (incandescent bulbs) may be disposed of with other, non-recyclable garbage.

Fresno County, Resources Division (559) 262-4259

GASOLINE

This item requires very careful handling. Call for disposal options.

Fresno County, Resources Division (559) 262-4259

JUNK MAIL

There are ways to reduce the amount of junk mail you receive. Call for information on companies and web sites that remove your name from mailing lists.

Fresno County, Resources Division (559) 262-4259

MATTRESSES

Contact thrift stores and charitable organizations listed in your phone book.

MEDICATION

Do not attempt to recycle prescription drugs. It is both illegal and dangerous. Flushing medicine down the toilet is no longer considered an environmentally sound option. Please bring unused medication to the next Household Hazardous Waste Drop-off event.

PLASTIC BAGS

As of July 2007, most large supermarkets and stores with pharmacies will be required to provide a bin in which clean plastic carryout bags may be collected for recycling and to make reuseable bags available to customers for purchase. The new law also encourages voluntary compliance by other retail establishments and smaller supermarkets. Rather than relying on a list of participating stores, consider encouraging every store you shop at to provide this service. And if you have not used reuseable bags in the past, give them a try. Most people find reuseable bags to be very user friendly and an improvement over both paper and plastic bags. If you place recently emptied bags at the door, you are less likely to forget to take them back to your car and more likely to have them with you when you are shopping.

PROPANE TANKS (SMALL TANKS OF BBQ GAS)

Small tanks are accepted at no charge at Fresno City Fire Stations. Several private businesses operate exchange programs for a fee. These are usually located in front of supermarkets and "home" and hardware stores.

RAILROAD TIES/TELEPHONE POLES/TREATED WOOD

Wood treated with creosote, arsenic, lead paint, preservatives and other chemicals is considered a hazardous waste and is not accepted at local landfills. Call for disposal options.

Fresno County, Resources Division (559) 262-4259

ROOFING MATERIAL

Some composite shingles may contain asbestos. Special testing, packaging and noticing may be required before you can dispose of this item. Call for details before you start this kind of project.

Landfill Manager (559) 262-4259

SHARPS (NEEDLES/LANCETS)

While it will be legal until July 2008 for those who medicate themselves at home to dispose of sharps (needles and lancets) in the landfill, it is not the recommended method. You are encouraged to bring sharps to the Household Hazardous Waste Drop-off event for disposal, free of charge. Call for the date of the next event or to request a free sharps disposal container, while supplies last.

Fresno County, Resources Division (559) 262-4259

SMOKE DETECTORS

The newer smoke detectors are free of any hazardous materials. It is legal to dispose of all types of smoke detectors in your non-recyclable garbage.

THERMOSTATS/THERMOMETERS (CONTAINING MERCURY)

Many manufacturers will take back their own products for recycling. Call the company for information. Thermostats/thermometers may be brought to a Household Hazardous Waste Drop-off event.

Fresno County, Resources Division (559) 262-4259

VEHICLES: ABANDONED

For help with abandoned vehicles in the City of Fresno

- on your property Enforcement (559) 621-8400

- in the street Road Maintenance (559) 621-2085

Anywhere in the unincorporated areas of the County CHP (559) 441-5400

VEHICLES: DONATIONS

Contact charitable organizations. Many accept donations of cars, boats and/or recreational vehicles.
